This section presents a series of situations. In each case, imagine yourself and another soldier in that situation, facing a clear danger and having to take appropriate action. In each situation the question for you to answer is this: What do you think the other soldier would probably do? First, imagine that the soldier with you is Pfc. John Jones. Next, imagine that the soldier with you is Pfc. Mary Jones.

Situation #1: Your company is under small arms fire from an enemy element 300 meters to your front. You and Pfc. Jones are in a foxhole somewhat to the right of the rest of your company. Given the following choices:
